DETAILED ACTION

The drawing sheet of figure 3 filed 06/18/10 has been approved.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 13, 21, 25 and 29-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Japanese reference 63-22499 in view of Sutton as applied and for the reasons set forth in the Office action mailed 09/08/09.

Also the comments set forth in the Office action mailed 02/18/10 regarding this art rejection are herein repeated.

Finally claim 30 is included herein in view of applicants' clarification in newly submitted figure 3.

Claims 13, 21, 25 and 29-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Japanese reference 63-22499 or 06-294398 in view of Kampert as applied and for the reasons set forth in the Office action mailed 02/18/10. Note the Office action mailed 02/18/10 set forth 06-29398 instead of 06-294398. Applicants' remarks are directed to 06-294398.

Note claim 30 is included herein in view of applicants' newly submitted figure 3.

Applicants' arguments have been carefully considered but are not deemed persuasive. The art collectively teaches shaping and connecting linkages including bell cranks to provide desired tool attitudes during vertical movement and thus an artisan would have recognized that the primary references could have been modified as claimed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
